Peabody Midwest Mining, LLC- Bear Run Mine

Sullivan, Indiana
Sullivan County

Our office has received your NPDES Notice of Intent submittal dated March 26, 2015, for modification of general permit coverage. In it you requested the following change to your coverage, which you state is necessary to capture disturbed runoff from the active mining operations:

The addition of new alkaline Outfall 088 (latitude 39°, 01', 02", longitude -87°, 18', 57")
discharging to an unnamed tributary to Middle Fork Creek.

We have reviewed your request and determined that the mining activities associated with it are not the result of any new or expanded permitted mining operations. Mining activity is a process of sequential coal removal and reclamation and as mining progresses and reclamation follows these activities will not result in any unanticipated discharges to a receiving stream.

Our office has further determined that the addition of the new alkaline outfall will not affect Peabody Midwest Mining's Bear Run Mine's eligibility for coverage under the general permit rules outlined in 327 IAC 15-1 through 15-4 and 327 IAC 15-7, Facilities Engaged in Mining of Coal, Coal Processing, and Reclamation Activities, nor will the additional outfall point affect the site's ability to meet the reporting requirements. Therefore your petition to amend your permit coverage as is described above has been approved in accordance with Indiana rules promulgated under 327 IAC 15-7 and 327 IAC 2-1.3. Coverage for the facility will now include all outfalls listed on the first table of Attachment 1 to this correspondence.

The NPDES general permit identification number assigned to this facility in the previous approval will continue to apply, as will all other testing and reporting that are required under 327 IAC 15-7 using the forms that were sent to you previously. Additional copies of this form are available on the internet at the following web site:

<http://www.in.gov/idem/5104.htm>

A State that Works

327 IAC 15-7 is also available on the internet at the following website:

<http://www.in.gov/idem/4087.htm>

Additionally, you will continue to receive the computer generated preprinted federal NPDES DMR forms. Both the state and federal forms need to be completed and submitted on a routine basis. If you do not receive the preprinted DMR forms in a timely manner, please call this office at (317) 232-8670.

These modifications shall become effective on **June 1, 2015**, unless a person aggrieved or adversely affected by the acceptance appeals this decision. Coverage under 327 IAC 15-7 for all remaining outfalls remains effective, and will expire on **May 31, 2019**. In order to receive authorization to discharge beyond the date of expiration, the permittee shall submit such information and forms as required by the Indiana Department of Environmental Management no later than ninety (90) days prior to the date of expiration.

Please note that any person who is adversely affected or aggrieved by approval under the cited NPDES general permit rule may, within eighteen (18) days from the mailing date of this notification, appeal this acceptance by filing a written petition for administrative review with the Office of Environmental Adjudication, in accordance with IC 4-21.5-3-7. This petition constitutes a request for an adjudicatory hearing. The procedure for appeal is outlined in more detail on the attached page.

The Office of Environmental Adjudication will provide parties who request review of this approval with notice of prehearing conferences, preliminary hearings, hearing, and stays or orders disposing of all proceedings. Nonparties may receive such notices without intervening and formally becoming parties in the proceeding by requesting copies of such notices from the Office of Environmental Adjudication.

If you have any questions regarding this letter, please contact Ms. Sheri L. Jordan of our office at (317) 232-8703.

Sincerely,

Catherine Hess, Chief
